

UPMC Department of Radiology Visiting Clerkship for Students Underrepresented in Medicine

Program Description and Highlights

The Visiting Clerkship for Underrepresented in Medicine (URiM) offers fourth year medical students an opportunity to experience UPMC's Department of Radiology and Residency Program. The program goal is to increase diversity, equity, and inclusion in the Radiology Program at UPMC. In this four-week program, students will:

- Rotate through subspecialties like Diagnostic radiology, Interventional radiology, and the Emergency Radiology Division.
- Work one on one with faculty and residents/fellows in each service and receive an immersive experience reviewing cases and participating in radiology procedures.
- Attend lectures and conferences to supplement hands-on experience.
- Explore current projects with 3D printing and artificial intelligence within the department.
- Have an opportunity for networking and mentorship to prepare for interviews.
- Receive stipend for travel and living expenses.

Program Eligibility

- Must be a fourth-year medical student in good academic standing from any U.S. accredited medical school or U.S. territories medical school
- The Association of American Medical Colleges (AAMC) defined in Underrepresented in Medicine

Application Requirements

- Visiting Student Learning Opportunity application
- UPMC Department of Radiology Visiting Clerkship application
- Medical school transcript
- CV
- Passing USMLE Step 1/ COMLEX 1 Score
- Personal statement
- One letter of recommendation

UPMC
LIFE CHANGING MEDICINE

UPMC policy prohibits discrimination or harassment on the basis of race, color, religion, ancestry, national origin, age, sex, genetics, sexual orientation, gender identity, marital status, familial status, disability, veteran status, or any other legally protected group status. Further, UPMC will continue to support and promote equal employment opportunity, human dignity, and racial, ethnic, and cultural diversity. This policy applies to admissions, employment, and access to and treatment in UPMC programs and activities. This commitment is made by UPMC in accordance with federal, state, and/or local laws and regulations.

A WORLD-CLASS TEAM OF EXPERTS

Radiologists at UPMC.
Be a part of it.

UPMC's Department of Radiology has one of the largest residency programs in the country.

The department is home to preeminent educators in the field, drawing residents, fellows, and physicians from all over the country, and has made major investments in equipment and technology to ensure the vitality of the research program.

As an academic medical center, physicians may benefit from **access to extensive research opportunities, and the ability to collaborate with experts across specialties.** A **\$24 billion health care provider and insurer**, UPMC is inventing new models of patient-centered, cost-effective, accountable care. With a system as robust as UPMC, physicians have the flexibility to move within the system, including **opportunities to work in different care settings**, in different regions, and even internationally. UPMC is committed to **diversity and inclusion** in every aspect of the organization. Our extensive health and wellness support system helps **prevent physician burnout**. We attract some of the best minds in research and clinical practice from all over the world.

More than **\$582** in NIH research funding

More than **355,00** inpatient admissions and observation cases each year

Affiliation with the **University of Pittsburgh** Schools of the Health Sciences

"We understand the importance of a diverse and inclusive community and the role it plays in the practice of medicine. No matter your age, gender, race, ethnicity, religion, sexual orientation, disability, and other diverse background, you are welcome here at UPMC Radiology. We engage with our trainees, faculty, advanced practice providers, technologists, and others that are underrepresented in medicine and are learning ways to improve their experience here. We also engage our underrepresented minority community to ensure equitable use of health care resources."

WHY CHOOSE UPMC

Based in Pittsburgh, Pennsylvania, UPMC has hospitals throughout western and central Pennsylvania, western Maryland, and western New York. Through our international programs, UPMC also has a global presence in Italy, Ireland, China, and Kazakhstan. **With a multitude of professional growth opportunities**, UPMC offers physicians leadership positions and important roles in collaborative research efforts. In addition, the University of Pittsburgh offers a number of educational options, such as leadership education programs and master's degree programs in medical education and clinical research at its Institute for Clinical Research Education. Our affiliation with the **University of Pittsburgh** has led to pioneering work, including groundbreaking approaches to living donor organ transplantation, and major investments in immunotherapy and immune transplant. The University of Pittsburgh has been among the top 10 recipients of National Institutes of Health research funding since the 1990s.

Multiple **professional growth and research opportunities**

Hospitals and outpatient facilities in western New York, Pennsylvania, and western Maryland
